

Petite beauties for fresh and healthy indoor air in smaller spaces

The established and proven device series **airdeco** convinces not only due to perfect practical properties, but also by their appearance.

Attractive shapes and highquality materials turn the air purifiers into elegant objects that are an eye-catcher in any living and working environment. In living rooms, elegant offices, foyers and sales rooms, restaurants, hotels or clubs - **airdeco** provides fresh and healthy indoor air in its most beautiful form.

OUR DAILY COMPANIONS

Germs

Multiresistant germs and specific viruses are becoming more dangerous.

Odors

The presence of putrid smells and odors can be quite disgusting.

Allergens

Approximately 20% of all people are battling with allergies every day.

Other irritants

Volatile Compounds (VOCs) are harmful chemicals emitted from every day products.

Clean air – nature shows us how

The technology of bi-polar air ionization copies the natural processes of air purification and ensures the creation of activated oxygen for a pleasant, healthy indoor climate.

First defense against allergies

The general well-being is noticeably improved, annoying odors are prevented, the air is freed of pollutants, germs, bacteria and molds, and the oxygen ion content is increased.
